

Replacement Consumables for Millipore Lab Water Systems

Rephile offers a wide range of replacement cartridges and accessories for Millipore lab water systems.

New offerings

with RFID tags

RephiDuo P Pack compatible to Millipore PROGOTOS2

Designed for water softening and to remove large particles, organic compounds and chlorine from tap water. The Cat. No. is RR800CP01.

Compatible with the following Millipore water systems:

- Elix Advantage 3/5/10/15
- Elix Reference 3/5/10/15
- Milli-Q Integral 3/5/10/15

with RFID tags

RephiDuo U Pack compatible to Millipore Q-Gard and QPAK

Designed to remove ionic and organic contaminants down to trace levels from RO or distilled pure water.

Compatible with the following Millipore water systems:

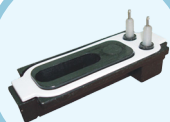

- Milli-Q Advantage A10
- Milli-Q Reference
- Milli-Q Direct 8/16

Repair services for Millipore PCB and power boards

Rephile provides repair services for failed control boards and power boards of various Millipore water systems and warrant full functionality of repaired boards for 6 months after service.

Ultrapure Cartridges

- Filled with LeFil™ and OrganeFil™ media, which are composed of ion exchange resins and activated carbon
- Designed to remove specific types of water contaminants with large capacity

RephiSolo and RephiDuo U Pack

Compatible to Millipore Q-Gard & Quantum

- Compatible with the following Millipore water systems:

- Milli-Q Academic
- Milli-Q Bioceel
- Milli-Q Gradient
- Milli-Q Synthesis
- Milli-Q Element

RephiQuatro U Pack

Compatible to Millipore QPAK

- Compatible with the following Millipore water systems:

- Milli-Q Plus
- Milli-Q PF Plus
- Milli-Q UF Plus
- Milli-Q UV Plus
- AFS 200
- AFS 300
- Alpha-Q
- Milli-Q RG

RephiDuo S Pack

Compatible to Millipore SimPak

- Compatible with the following Millipore water systems:

- Simplicity
- Synergy

Pretreatment Filtration Cartridges

- Designed to remove most particles, organic compounds and chlorine from tap water to protect the RO membranes

RephiDuo P Pack

Contains activated carbon and depth filtration media in a polypropylene housing.

- Compatible to Millipore Progard
- Compatible with the following Millipore water systems:
 - Elix 3/5/10
 - RiOs 5/8/16
 - Direct-Q 5

RephiQuatro P Pack

Designed in a duplex configuration, these cartridges can be rotated and reconnected when one-half has been exhausted.

- Compatible to Millipore ROPAK
- Compatible with the following Millipore water systems:
 - Milli-RX 20/45/75
 - Milli-RO 5/8/12/30/60/90
 - Milli-U 6/10

RephiDuo P Pack TL1

Suitable for large water systems and designed to ensure long service time.

- Compatible to Millipore Progard TL
- Compatible with the following Millipore water systems:
 - Elix 20/35/70/100
 - RiOs 30/50/100/150/200
 - Elix Clinical
 - Elix Gulfstream Clinical
